**EDUCATION PAPUA NEW GUINEA** Achieving a better future

# Flexible Open and Distance Education (FODE)

**Providing Flexible Open and Distance Education gives alternative opportunities to students to pursue other pathways of formal education.**

Distance education has the potential to reach a broader audience at lower cost both to Government and client. In addition, it has the potential to address the difficulties of distance and terrain in the delivery of education services to all Papua New Guineans.

The principal target groups will be:

- Grade 6 to 8 in remote schools
- Students who choose to complete their Grade 9 and 10 education through the Flexible, Open and Distance Education mode and gain entry into the formal system following graduation from Grade 10
- Those who want to complete a Grade 6 to 12 education
- Students who want to complete matriculation programs to progress into tertiary institutions
- People undertaking technical and vocational training courses.

FODE will also develop further adult education, adult literacy and short technical and vocationally orientated courses, taking advantage of advances made in information communications technology.

A restricted Flexible, Open and Distance Education college will provide an attractive alternative way for students who are unable to gain a place in the formal school system.

For the health of women, for the health of PNG:

# SAY NO TO VIOLENCE

Call for Action!

## 20 DAYS OF ACTIVISM AGAINST VIOLENCE AGAINST WOMEN

The Family and Sexual Violence Action Committee (FSVAC) is the peak national body that works towards the elimination of the occurrence and suffering caused by physical, sexual and psychological violence within families in PNG.

FSVAC is calling all its partners, the government departments as well as the public to observe 20-days of activism against violence against children and women

**Human beings are born free and equal in dignity and rights and that everyone is entitled to all the rights and freedom without distinction and discrimination of sex.**

*Universal Declaration of Human Rights*

which commenced on 20 November and ends on 10 December 2005.

25 November is International Day Against Violence Against Women. This year's theme for the 16 Days of Activism Against Violence is: **FOR THE HEALTH OF WOMEN, FOR THE HEALTH OF**

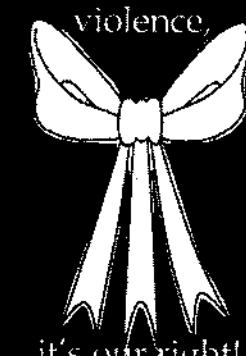

**PNG**

Violence against women

is the most wide-spread violation of human rights which is seen to be tolerated in Papua New Guinea and considered a private business, a normal occurrence in a relationship between a man and woman, where the state, community or family should not interfere. It is a gross violation of women's human rights and widely recognised as having serious development impacts, including but not limited to negative impacts on women's health and wellbeing.

Violence against women exists on a continuum, from domestic violence in the privacy of the home, to violence as a weapon of war, where rape and other forms of sexual exploitation committed against women are now acknowledged as a crime against humanity. Usually, the person using violence is already in a position of greater power and those being violated or controlled have less power to resist or remove themselves

A life free from violence,

it's our right!

20 Days of Activism:  
November 20: International Children's Day

November 25: International Day Against Violence Against Women  
December 1: World AIDS Day  
December 6: Anniversary of the Montreal Massacre

December 10: Human Rights Day

### Pledge:

**For the physical, reproductive, economic and social health of women; for the health of all people, for the protection of human rights, for the promotion of sustainable development and for the peace in Papua New Guinea: SAY NO TO VIOLENCE.**

from the situation. Violence against women can be in the form of: Physical violence, Emotional violence, Verbal violence, Sexual violence, Social violence, Financial violence and Spiritual violence.

The consequences of violence against women are devastating. Victims often experience emotional distress, mental health problems and poor reproductive health. Abused women are also at higher risk of acquiring HIV.

This year we would like to highlight the linkage between violence against women and the HIV/AIDS pandemic. Violence and discrimination against women decrease the possibility for women to protect themselves from infection and limit the access to health services.

The United Nations Convention on the Elimination of Violence Against Women (CEDAW) remains a critical instrument in promoting gender equality and empowerment of women. Often described as the international bill of rights for women, it is the human rights treaty that addresses most comprehensively women's equality with men and non-discrimination in the civil, political, economic, social and cultural fields.

Papua New Guinea is a signatory to CEDAW since 12 January, 1993.

The issue of violence against women and girls must be considered one of the greatest challenges in the coming decade and all Papua New Guineans are urged to join the FSVAC, its provincial committees and partners declare: **NO MORE VIOLENCE.**

Program

Violence against women is accepted as the norm in far too many parts of PNG. Violence against women cuts across socio-economic, religious and ethnic groups and across geographic areas. Women are at risk of violence when carrying out essential daily activities - walking or taking public transport to work, collecting water or firewood, especially when these activities are undertaken early in the morning or late at night. Using public transport can make women vulnerable to rape and adolescent girls face the risk of violence in schools.

# Barbara's Fashion Shop

Since the establishment of new Alotau town in the early 70's, that was soon after closure of Samarai Island, Mrs Barbara Abel was doing a lot of sewing and mending at her home. When the Masurina Business Centre was built, that was the time when she decided to start off her shop. Now still at its old location in the heart of the town.

Barbara's Fashion Shop sells all kinds of items such as clothing and artifacts where art sells itself in elegance and comfort.

From clothing to traditional artifacts, you name it they sell them all. Also from cheesy Milne Bay printed T-Shirts all locally inked to stylish regional artifacts.

They display an excellent range of carvings, baskets, bowls and necklaces. And for men, those earrings that match your women, they have them all.

So the next time you planning a trip to the beautiful Milne Bay seek the best of Milne Bay seek the best of Milne Bay and you desire for a souvenir from the shores of beautiful Milne Bay. Or maybe your need to change in fashion please call into the MBC complex and visit Barbara's Fashion Shop.

# GOGODALA CEREMO

Proudly supported by The Governor for  
Middle Fly and Minister for Local Government

Canoes play a vital role as a means of water transport for the lives of Gogodala tribes of Balimo people in Western Province. There are three groups of canoes. Single or smaller canoes used for fishing or smaller jobs, medium canoes used for heavy loads or to travel in group on a long journey and colorful ceremonial canoes for races during festive or special occasions in the area. Such occasions mark the skills and craftsmanship of individuals and a pride of the village. The canoes are made or dug out from single long logs.

Young men are initiated on small initiating canoes before they are allowed to paddle in the big racing canoe. Each clan and canoe design has its own songs which are passed from song fathers from generation to generation.

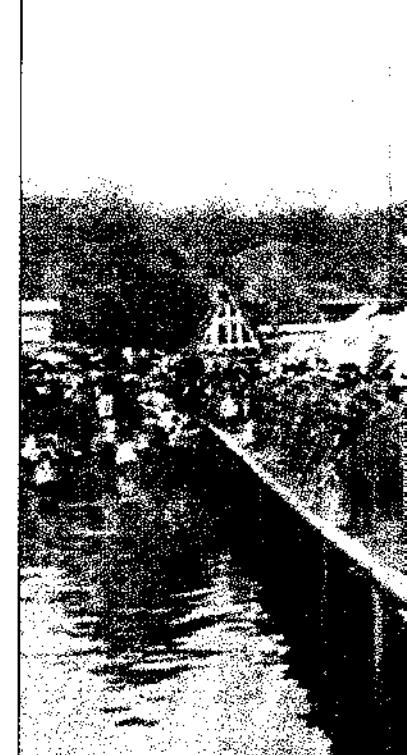

The head dresses and paddles of the paddlers signify the design and color of the canoe. As soon as the canoes are pushed onto the water, the paddlers get onto the canoe according to the list. These canoes hold about 20 to 40 paddlers. It depends on the size and length of the canoe.

The canoes are taken to the starting point.

While the canoes are taken to the starting point, the spectators and women get ready at the finishing point to celebrate the win. The women also wear traditional costumes. They take split bamboos to beat on the ground to make clattering noise to add to the dancing beat and excitement.

This is the most exciting part of the race. The spectators and women show pride to their tribe canoes on the water. They sing and clap along with the tapping and chanting of the paddlers.

which are in turn

The sight of long and colorful canoes added much excitement and eye catching for the residents and visitors in Alotau during Canoe and Kundu Festival. Five canoes were loaded onto Kikori Chief at Balimo in Western Province and were transported to Port Moresby. They were then taken to Alotau by RH barge called Swift.

As usual the race is done in the morning hours before the winds bring in waves. However before the race, all the paddlers dress up in traditional costume and chat and sing canoe songs continuously as a warm up practice. It is also meant to wake the spirit of the canoe. Chanting and calling the head dress of the canoes are carried to the canoe place. After placing the head dress on the canoes, the canoes are launched onto the water and taken to the starting point of the race.

race for the owners of the canoes. The women and men who that belonging to their mothers' clan dance to the rhythm of ning and arrival of the canoes.

At this stage the front man of each canoe is responsible to safeguard the head dress of the canoe which signify the power and the spirit of the canoe. He pulls out the head dress and gets onto the shore. The celebration continues until the people are satisfied.

# Member for Alotau sound early seasonal greetings to his people

Once again 2005 is about to go within the next four weeks time, my good people, we must do three things now.

1. As caring Christians we celebrate the birth of our Lord Jesus Christ our Saviour. In doing so we show love and caring for others.
2. We are farewell to the passing year 2005 and;
3. We celebrate and welcome the dawn of the New Year 2006.

As your Member of Parliament, I am very appreciative of many challenges that you are going through due to the economic times, which obviously will adversely affect your Christmas and New Year celebrations.

However, I must commend you for your genuine efforts and contributions to the development and progress of our district and country in spite of the harsh economic times.

#### Two messages

In this Christmas and New Year, I wish to relay to you two messages:

Firstly, I wish to encourage you to continue to be strong, to preserve, to strive through your struggle to survive because nowadays our lives are not about living but about survival, that is making sure we survive to continue another day. We have come through times but the struggle is not over yet.

We must take stock of what we have - our natural resources and our own personal assets and make good use of them for our own benefit and for the community.

#### New Initiatives

The time has come for us to stop being parasites. We must stop asking for free handouts from the government because our country is going through one of its toughest economic times in its 29 years history and therefore we must strive to be self-reliant rather than relying too much on the government for survival. I wish to assure you all that as your member of parliament, I too am determined to continue the struggle to make a difference despite the very limited financial resources at my disposal. I am therefore pleased to inform you that two new development initiatives have been introduced recently this year, namely, the passenger/cargo boat for the Alotau electorate and the Alotau district soccer tournament. The first project will provide transport infrastructure services as well as expand the financial capacity of our district. The latter project provides for physical and social empowerment of our people. The underlying objective here is to bring development benefits to all seven corners of Alotau District, especially to the Rural Areas where the bulk of our people live and who usually miss out such services.

Whilst continuing our normal development efforts to empower our people in the Alotau District financially through income generation and transport infrastructure, I wish to announce two other major development initiatives that my government will be undertaking early next year 2006. These are Eco-Forestry development especially for those Forestry areas in the district and Mini Rural Credit Scheme for Alotau District.

The Birth of our Lord Jesus Christ, the Saviour in lowliness and hardship gives us the blessings, the hope and strength to continue the struggle for survival in our country that is entangled in a web of so many problems. My second messages to you is to re-look or re-examine ourselves as individuals and the system we work and live in so that we can change from within our hearts and souls to be better people to improve our livelihood and bring progress and prosperity to others and

our country as a whole. We must look back over the years and see where we have gone wrong so that we can plan and improve for a better future.

#### Remedial Actions

After almost 30 years of independence our country continues to face direct economic and social problems. Obviously, we have not learnt from our past mistakes again and again.

In order to reduce and control the overwhelming problems we face and bring progress and prosperity to our country, we must take immediate drastic remedial action before it is too late. I believe that remedy is to change ways of living, our attitudes, and our customs by every individual person from all walks of life from the leaders to the ordinary person.

We must change our lives to show and have love and respect for property and most of all for life, for our fellow men, for our women and children and for our youth and the elderly.

We must change so that our political leaders work in the best interest of their people and not be greedy for themselves. Our public servants must work for their moneys worth and not to build their own employment empires. As ordinary citizens of this country, let us also be satisfied with what we have and not be jealous of others.

Papua New Guinea is at a crossroads of destiny. It is not too late, but every individual person from all levels of our society must make that change of the heart and spirit to ensure that the future destiny for our children and ourselves is not jeopardized.

Wherever you are, in town or in the villages, celebrating your Christmas and New Year, I wish to remind you not to indulge yourselves in any activities that may bring sorrow to the family and the society at large.

#### HIV/AIDS Epidemic

In addition to the continuing economic and social problems, we are now confronted with another more serious problem of the HIV/AIDS epidemic, which is already ravaging like wild fire throughout our country. More and more of our people especially the youth who are most likely to be affected by the disease, will get wiped out because they are most sexually active.

The tragic result of this is that our communities will lose a whole generations of future workforce who will no longer be there to provide food security for their families in the rural villages and income for their families in the towns and cities.

I am sure, you are all aware of this dreaded incurable disease, which is passed only through person to person by sexual contact, but controlling the epidemic by making the people aware of its dangers has been found to be not working out at all.

The only effective way of stopping HIV/AIDS epidemic is by every individual person to change his or her sexual lives and habits from promiscuity or sticking to one sexual partner.

We must make a total change in our lives now for our own sake, our children's, our district and for our country. I believe that the only way we can change the future destiny of our country is by changing our hearts and souls so that we can be more caring, respectful, understanding, forging and resourceful people.

I wish you all again a BLESSED CHRISTMAS and a safe festive NEW YEAR CELEBRATIONS!
