**BANK OF PAPUA NEW GUINEA
PUBLIC NOTICE**

WARNING AGAINST FAST MONEY SCHEMES & SCAMS

The Bank of Papua New Guinea (the Bank) continues to warn the public to watch out and avoid doing business with fast money schemes. The Bank strongly advises against putting money in such schemes, as they are illegal, and people who place their money with the promoters or agents of these money schemes will always lose their hard-earned cash. **FOR MANY UNAWARE VICTIMS, YOUR MONEY IS LOST!!**

The Bank continues to warn the public about illegal money schemes such as Money Rain, U-Vistract, Windfall, Bonanza 99, Hosava Stocks, Papalain Association, and the National Federation of Foundation. These money schemes are still collecting money from the public, but not paying returns on them. You should report such operators to the police.

The Bank is not going to recover your money from these schemes. The Bank, Police and other authorities can only do much to stop these schemes. It is up to the individuals - do not be foolish to place your money with any of these schemes - you'll never see your money and what ever you are promised in return. Your money is at risk - go and demand it back from the person you paid it to.

Many of these fast money schemes also falsely promise the public that the Bank of PNG is holding onto their billions and trillions of kina and will be released soon. Some of these operators have forged guarantees using colour reproductions of the Bank of Papua New Guinea's letterhead and signatures purporting to be of the Governor and Deputy Governor. These are outright lies, scams, and are deliberate acts of fraud and theft. The BANK DOES NOT DEAL WITH FAST MONEY SCAMS/SCHEMES OR PRIVATE INDIVIDUALS, AND DOES NOT ISSUE GUARANTEES OR WARRANTIES. Any person who accepts deposits from the public for any reasons at all without a license from the Bank or issues any Bank of PNG guarantee is conducting an illegal activity.

The Bank also warns the public not to respond to scams from overseas, which circulate letters requesting you to facilitate transfers of millions of dollars or other currencies from overseas into your personal bank account.

REMEMBER: DO NOT PLACE YOUR MONEY WITH ILLEGAL MONEY SCHEMES/SCAMS!!

Warm Christian and Seasonal greetings to all God's people of Papua New Guinea from;
Mr. Loani Henao - Chairman
Council Members
Mrs. Leontine Tamate - Executive Secretary
And all volunteers of the Bible Society of Papua New Guinea.

We thank all our member Churches, Partners in Bible Translation work, the Language Bible Translation Teams, valued clients and customers, the Trade Creditors and individuals who have assisted in the distribution of the Bibles and Holy Scriptures. We pray for your continued support for the coming New Year 2006. We pray for your health and well being during this Christmas. We thank our Media for the publicity given to us and the promotion of the Bible Society of Papua New Guinea. We thank the YWCA for their partnership in Bible Literacy and pray for their continued support. We pray that all people in Papua New Guinea will truly accept "Baby Jesus" in their hearts this His Birthday on 25th December, 2005.

Bible Society continues to serve the Community with its offer of "God's unchanging Word for a Changing World" in its challenge to achieve the widest possible, effective and meaningful distribution of the Holy Scriptures in Papua New Guinea. Our Nation of Papua New Guinea needs healing in many ways. We are the David of today, challenged with the Goliath of Corruption, immorality, HIV/AIDS and so on. Let us Trust in God and ask him for the strength to combat the evil which is dwelling in our land. For with God all things are possible, and with God with us, we have nothing to fear.

May God Bless Papua New Guinea.

Cat® Vibratory Soil Compactors

CS-563E

CP-563E

Designed to provide...
**Outstanding Performance,
Reliability and Fuel Efficiency.**

The 563E Series Compactors are high production units. Standard dual amplitude, changeable from the operator's station, expands the application range. Operate in high amplitude to get density on thick lifts in the fewest passes. Select low amplitude when operating next to structures, when approaching final density, or to avoid fracturing aggregates. Patented eccentric weight design assures positive amplitude selection and helps extend vibratory system service life.
