Sunset township of Vanimo says 'YELLO' with Citifon
Citifon handsets commence sale in Vanimo town

The yellow bandwagon, Citifon has come to the shores of Vanimo town in the Sandaun province with the locals to enjoy the affordable call and internet connectivity rates.

Vanimo is the latest township where Telikom PNG's Citifon has commenced the sale of handsets offering the residences of Vanimo the most affordable call rate of 2 toea per minute for Citifon to Citifon and 39 toea per minute to call other networks all day and all night.

Teikom PNG Chief Executive Officer – Peter Loko said since the launch of Citifon in May initially for Port Moresby, Lae and Kokopo, customers demand for Citifon has been overwhelming.

"Citifon is now our flagship brand while the fixed wireless phone and internet service using the internet dongle are also available on this network at very affordable rates which we believe is truly affordable for ordinary Papua New Guineans. To mark this sales launch Telikom is offering K50 free Telikad for every purchase of a V3 Citifon at K50.00," Mr Loko remarked.

He said the service aims at providing value-for-money to Papua New Guineans with the essential value being that of keeping in touch with family, friends and colleagues.

"This service will be extended into other centres around the country with team Telikom keen on its vision to have every Papua New Guinean have access to a telecommunication service by 2020. This will not only be for voice service but we also want our schools in the rural areas to have access to the internet to boost their learning, public servant to be able to access their bank accounts, local businesses to expand through networking and so forth," Mr Loko said.

Telikom Head of Commercial – Xavier Victor said for the month of September to mark the country's Independence anniversary, Citifon recorded being the first network in the country to offer the lowest international call rate at an exciting 39 toea per minute call rate to selected countries including Australia, India, China, Malaysia and the Philippines. Some residences in PNG from these nationalities when calling home have acknowledged Citifon for this rewarding call rate with Telikom also noting a fair increase in the call traffic into these countries.

There are five ranges of handsets with the models being that of V3 Gem, V3 Xing, V26, V27 and Alcatel OT-1650C. These handsets come with funky features that included FM Radio, music and video player, camera, and data modem that can be used to surf the internet. In other words, the phone can simply be used as an internet modem. Handsets come in very affordable prices ranging from as low as K79 to K199.
