The uncertain times ahead

SO, now we have another shocker from Peter O'Neill and Co, and it is business as usual until the public voice their dissent.

The young men and women from UPNG must be our heroes and heroines for showing courage, determination and their commitment to the cause, when they held up their hands and marched through armed blockades by Moresby's finest, who are now being used as if they were members of a private in-house security firm.

And Dr Allan Marat, the Minister for Justice and the Attorney General, seems to have become so parochial as to suggest that the march by students was the product of Engan students in efforts to protect their wantok, the Chief Justice. What a simpleton Dr Marat must be? Is that how far his mental faculty helped him to deduce from the whole matter starting with his Judicial Conduct Bill? If this is the calibre of Dr Marat, then little wonder that Peter O'Neill and Belden Namah are in trouble with the Law. Their captain does not know his own field of expertise.

Yes, the motive behind the Bill was clearly to outlaw a number of Judges who will not be intimidated so easily from their constitutional offices as Judges of the Independent State of Papua New Guinea.

Let us face the truth. Our Judges, just like all other Judges, do not have a private police force like O'Neill and Namah to do their dirty job. They do not own a private army like these two gentlemen. They can order any call-out at will, and they do not have access to the National Treasury to buy political support like Namah and O'Neill can.

What the Judges rely on as a means of cohesion for their Orders, is "respect" characterized by their schooling in the law, their performance at the bar, their good character generally, their personal integrity and finally, the dignity of the office of a Judge. And with that come other legal procedures for enforcement of the Orders.

Where there is an open and hostile attack on the integrity of a Judge, then all he is left with to use, is the contempt provision in the law to protect his office, and no more.

And why should O'Neill and Namah be so paranoid about punishing Judges who are powerless, but are still performing their constitutional duties without fear or favour? That's anybody's guess.

Our Judges are not responsible for this rot which has settled in Papua New Guinea since Independence.

You want to search out the real culprits in the short history of PNG, then such culprits must include Sir Michael, Sir Julius, Sir Mekere, Pius Wingti, Sir Rabbie and long time politicians like Bart Philemon, who have served under these hopeless Prime Ministers who were there only for themselves and their associates, and not the bulk of the population.

'Leave our Judges alone' is the message the University students have undertaken to convey to the politicians, and we congratulate them for their stance on the issue.

You have made us proud, and put to shame such "human rights lawyers" like Powes Parkop and other lawyers in the government like Allan Marat, Francis Awesa, and Moses Maladina.

The Judicial Conduct Bill is not an attempt to fill any assumed gap in the law on bias.

Thus, any lawyer who was responsible for the advice, or the actual drafting of this piece of horse manure, is not worthy of the noble profession of lawyering.

He, or she, is a coward and a political boot-legger.

And if such a lawyer carries on with this form of conduct they will end up with a hump back from licking the politician's boots.

We suggest that the UPNG Law School introduces a new subject called, "How to Lick Politicians' Boots and Suck their Toes", in their future Study Program.

And we suggest that they invite Dr Marat, LLB; LLM; PhD, as the first Chair to direct that and other associated courses

for their Law Degree at UPNG.

The law on bias is not a developing field of law. It is one of those well established fields of administrative law in the common law countries which have adopted the English law as the foundation of their legal system. The law on bias was borrowed by the Common Law Courts from the Ecclesiastical Courts which was responsible for the notion that no man should sit in judgment over his own cause.

And this notion has had two parts, namely, that a Judge sitting over a matter should not have a *personal interest* in the matter before him; and secondly, if he has no such interest then he must not have openly expressed his views in opposition to the subject matter of the proceedings then before him. The law required that in either case, the Judge must decline from the case and allow some other Judge to adjudicate.

And these are the 17th to 18th century concepts which have over the years fully developed to where the law on bias is now at.

Now it is no longer whether there is actual bias or not. The law is now whether there was likelihood of bias or whether there is a reasonable suspicion of bias. This is now a well established principle of law with necessary legal outcome should a Judge breach the Law.

Thus, we should ask Mr O'Neill and his Attorney General, Dr. Allan Marat: 'What major principle of law is now embodied in the recent judicial conduct bill?

This Bill has not introduced anything new to the substantive law on bias. What it has done is to throw the entire law on bias into oblivion. It has opened up a can of worms and knowing what we Papua New Guineans are like, this Bill has created a new problem for us on a major scale, namely, the problem of "forum shopping" a well known principle of law in the field of private international law.

That is, every man and his dog will be going in and out of Court Rooms looking for a more sympathetic Judge or jury whereby he can be assured of winning.

Now our court rooms will turn into the kind of drama the American Courts are known for in jury selections.

However, the bigger and the

more sinister element in the Bill is the requirement under Section 5 (2) which reads as follows:-

"(2) *If it appears to Parliament that a Judge has failed to disqualify himself pursuant to subsection (1) or has influenced a proceeding contrary to subsection (1), Parliament by way of a motion may refer the Judge concerned to the Head of State to appoint a Tribunal to investigate the breach of subsection (1) and provide a report to Parliament or may refer the matter to another Authority for an appropriate course of action."*

The first problem with the above law is the question: "How will Parliament become seized of the matter of bias by a Judge?"

Will a private litigant resort to Parliament if he feels that a Judge is biased and if so what are the procedures to follow in taking the matter to parliament? And if this course of action is followed by a litigant, then what about the legal remedies available to him in the normal course of events? Are these abandoned in favour of this nonsense under the Bill? If not, then what are we doing here, and where are we heading with this Bill?

There are far too many uncertainties with this Bill.

It is not a well thought out and presented piece of legislation.

One look at the Bill will tell any layman that the Bill was prepared in haste and without any legal thought necessary to work out a number of important points, namely; is parliament now entering the field restricted to the judiciary and if so, what is now the extent to which the theory of separation of powers has been eroded by this Bill; and secondly, what is the primary objective that parliament has in mind in bringing about this Bill?

There are far too many questions to ask regarding this Bill that if it is put into force, one doubts if decent lawyers will succumb to the temptation to adopt the nonsensical this piece of ill-thought and advised legislation.

And what is Somare up to these days? He is now very quick to shout, "wolf, wolf" every time O'Neill and Namah come up with their own surprises like the above Bill on Judicial Conduct. And then he attacks the Ombudsman Commission for silence over the Bill and he appears all "paranoia" about this small piece of legislation.

Obviously, Somare has a

memory problem. He cannot recall that immediately before he left for Singapore on his medical holiday, he was responsible for that amendment of the law whereby the powers of the OC was curtailed and the Ombudsman Committee under Maladina took over the matter of supervision and control of the Commission. And then Sir Michael gave us that amendment of the Environmental Law, taking away the rights of the landowners to take development companies to court over environmental damages. Thanks to O'Neill and Namah, this law has now been repealed. Somare, you nogat sem tru!

And now Sir Michael would like us believe that he is the great champion of the people and their rights. Go away Somare and get lost. You are a lost cause. We the people have trusted you over the years and what have you left us and our children to treasure in the generation to come? Nothing!

You were too busy building up a little empire of your own using public money. You were building up a likliklik dynasty and in so doing, getting yourself surrounded by families and associates. Even within the NEC you had your little "inner circle of advisors" captained by none other than "the artful dodger", Arthur the Somare. Forget the country; just take a look at what you have done for your own Province of ESP. You did nothing!

It is a fat zero and yet year in and year out these people closed their mind to your lack of support and kept voting for you for such an extent of time that you started to look upon returning every five years as if it was a matter of right bestowed on by some divined providence. You are a sick man. That is for sure.

And now that it is O'Neill and Namah taking their turn to rape the country and empty the till, you are shouting, "wolf, wolf!". Wanem? Yu tasol bai kaikai? Tupela em man tu hia. Na yu ken pasim maus.

You, Sir Michael, lack the legitimacy to speak for the very people that you have exploited during your terms of office.

In 6 months after taking office these two gave the people free health and free education. That is not too bad a record. And what is yours in 40 years of governance? Zero balance!
