Department of Environment and Conservation and United Nations Development Programme request for Expressions of Interests to provide Consultancy Services to conduct the Terminal Evaluation of its project on "Capacity Building for Sustainable Land Management

Background

The Capacity Building for Sustainable Land Management (SLM) Project in Papua New Guinea (PNG) is a Medium Sized Project (MSP) funded by Global Environment Facility (GEF) through the United Nations Development Programme (UNDP). The project is implemented directly by Department of Environment and Conservation, commenced in mid 2008. The project completion was originally planned for December 2010 but extended to December 2012.

The project's goal is to build capacity to implement SLM into each level of decision-making in government at national, provincial and local level to promote and institute effective SLM practices for economic, social and environmental benefits, including conserving and restoring ecosystem integrity, functions and services. The aim is to provide a systems approach to maintain and improve ecosystem stability, integrity, functions and services – bearing in mind the need for sustainable livelihoods in rural communities. The expected outcomes are (1) systemic capacity building and mainstreaming of SLM into policies, plans and regulatory frameworks; (2) an increased knowledge and awareness of the state of land degradation and the importance of sustainable land management for land based resource development activities; (3) enhanced technical, individual and institutional capacities for SLM; and (4) Design PNG's National Action Plan.

DEC and UNDP invites Expression of Interests from suitably qualified and experienced experts (nationals or internationals) to conduct the Terminal Evaluation of PNG's Capacity Building for Sustainable Land Management Project.

Scope of Consultancy Services

The terminal evaluation will provide a comprehensive and systematic account of the performance of the completed project by assessing its project design, process of implementation, achievements vis-à-vis project objectives endorsed by the GEF including any agreed changes in the objectives during project implementation and any other results.

The overall objective of this terminal evaluation is to review progress towards the project's objectives and outcomes, assess the efficiency and cost-effectiveness of how the project has moved towards its objectives and outcomes, identify strengths and weaknesses in project design and implementation, and provide recommendations on design modifications that could have increased the likelihood of success, and on specific actions that might be taken into consideration in designing future projects of a related nature.

A detailed Terms of References which outlines the full scope of this consultancy can be obtained by contacting: UNDP HR Associate on 321 2877, email: yvonne.baloilo@undp.org or by visiting Level 14, Deloitte Tower, Douglas Street, Port Moresby.

Essential Requirements

- Substantive experience in reviewing and evaluating similar technical assistance projects, preferably those involving UNDP/GEF or other United Nations agencies, development agencies and major donors;
- Consultant with academic and/or professional background in natural resource management or related fields with experience in land management, with in-depth understanding of land issues as well as community-based natural resource management. A minimum of 10 years of working experience is required;
- Experience in leading multi-disciplinary and multi-national teams to deliver quality products in high stress and short deadline situations;
- Familiar with SLM approaches in developing countries including Asia Pacific will be an advantage either through management and/or implementation or through consultancies in evaluation of land related projects. Understanding of local actions contributing to global benefits is crucial;
- Highly knowledgeable of participatory monitoring and evaluation processes; and
- Excellent English writing and communication skills.

Terms and Conditions
