- * There is empirical evidence that the reforms to the Intergovernmental Financing Arrangements contained in the *Organic Law on Provincial Governments and Local Level Governments* have resulted in improvements by Provinces in their delivery of basic services.
- * There has been increasing funding provided to provinces for basic service delivery; from K134.7m in 2009 to K261.2m in 2012. This means provincial funding for basic services has almost doubled during this period.
- * This funding has also been better targeted to high priority areas such as funding of rural health facilities, primary schools and the maintenance of our rural roads system.
- * As a result, we are beginning to see improvements in the capacity of provinces to better serve the rural communities of Papua New Guinea. The National Economic & Fiscal Commission (NEFC) will continue to work with provinces to build on these improvements.

These results show that when everybody works together, (provinces, national agencies and Local-Level Governments), we can make a real difference to the welfare of our people in rural Papua New Guinea.

Happy 37th Independence celebrations, Papua New Guinea

Commitment, better management of resources and attitude change will see a better PNG

Independence Message By Fr Lollington

ALMOST leading up to four decades, Independence is something that towns and cities of this great nation must be proud of.

We have seen the development of our country; and though PNG is on its own, our bilateral relationship with our mother country, Australia, was and is committed to building human resources, and provide financial support. Millions and billions of kina coming into our country, but it is very hard to see development taking place in most remote parts of PNG.

Even the National Government's budget for capacity building in towns and districts is very poor.

Our schools, hospitals, health centers, roads and bridges are broken down. After 37 years, most parts of our country and roads have not been connected and as a result, our people cannot reach the nearest towns or markets to sell their products.

Their demands have been taken to Waigani, but we have deaf and dumb people who sit and enjoy our partners country funding and our tax payers' money.

Where is all the wealth of this great and blessed nation?

We need to take a critical look at ourselves to see if our commitment is wrongly applied.

But we thank God that PNG has been a self sufficient society in the past, where we survived through our own efforts, thus we have to recapture this attitude.

If we don't, then we will never achieve progress for ourselves and our society. This great nation with so much preaching of great wealth should be in partnership between the state and the people.

If our government means business with us, we need to see total commitment to do better, to work harder and to give more of themselves than before.

We need to see the foundation of doing and building, the renewal of commitment, hard work and self-sacrifice.

We need total commitment and self-sacrifice to make PNG great and change. We must refocus ourselves on what it is to be people of this nation.

We must focus again on all things that make us special.

If we say we are proud to be Papua New Guineans, One People, One Nation and One Country, let us thank God for the past achievements, challenges and failures.

Let us ask God to bless

PNG and take ownership of God's word and work.

Let us translate Gods' wishes into reality and if we are in that position, let us share the vision of this great and wealthy nation.

It's a time to give on tenth of this great wealth back to God so that the church social service can be in better position.

The church workers

lives may improve, and the word can be preached richly in this great land.

Finally, knowing ourselves as a nation, let us unite on the basis of respect for all levels of life.

As the mother of this nation, united we stand, divided we fall, united we rise and grow in building Christ relationship with one another.

TUMBUNA TRU! Ol pikinini bilong Roku prameri skul insait long sentral province i kilim skin long danis tumbuna long taim ol i kisim halivim bilong Intaoil na tu ol i selebretim independens. Poto:Aja Potabe
