World Sight Day Today

World Sight Day (WSD) is a global event observed every year in October to raise awareness on curable blindness and vision impairment.

Why are eye tests important?

Regular eye tests are very important because your eyes don't always show early signs when something is wrong. A sight test is therefore a vital health check that can show early signs of a blinding eye conditions before you experience any symptoms – many of which can be treated if found early to save vision before it's too late. Adults need an eye test every two years.

What will your eye test show?

A vision test will show if you need to:

Get glasses for the first time
Change your current glasses
If some health conditions are affecting your eyes and need treatment, such as:
Cataract
Diabetes
Injury
Glaucoma
Infections

Who provides eye care in a hospital?

Ophthalmologists and optometrists diagnose and treat eye conditions at PIH, including many that are rare or complex. They offer a full range of eye care, from routine eye exams to surgery. They have special expertise in cataracts, glaucoma, macular degeneration, cornea transplant, cancer of the eye, and diseases of the eyelids, the retina, the inside of the eye (vitreous), and the nerves related to the eye.

Who is an Optometrist?

An Optometrist is a medical practitioner who provides primary eye and vision care, performs eye examinations to detect vision problems, and prescribes

Free Eye Checks at PIH & at Eye care branches in Vision City, Eaterrfront and Steamships Downt Town POM.

corrective lenses to correct those problems. When an optometrist detects eye disease, the patient may be referred instead to an ophthalmologist, a physician who specializes in evaluating and treating diseases of the eye.

Who is an Ophthalmologist?

An ophthalmologist is a specialist eye doctor who concentrates on the medical and surgical care of the eyes and visual system and in the prevention of eye disease and injury. An ophthalmologist is a specialist who is qualified by lengthy medical education, training and experience to diagnose, treat and manage all eye and visual systems and is licensed by a state regulatory board to practice medicine and surgery. An ophthalmologist is a medically trained specialist who can deliver total eye care: primary, secondary and tertiary (i.e., vision services, contact lenses, eye examinations, medical eye care and surgical eye care), diagnose general diseases of the body and treat ocular manifestations of systemic diseases.

When should you see an Eye doctor?

Everybody, whether young or old should see an eye doctor at least once a year, more so if you are:

You have diabetes or high blood pressure

You are 40 and above and have difficulty reading up-close

If your child needs glasses or has a squint

If you sustain injury to or around your eye

4. What are the common symptoms requiring eye examination?

- Recurrent burning or itching sensation in eyes
- Problem in focusing while reading or seeing
- Blurring or clouding of vision
- Persistent pain, redness or watery eyes
- Floaters or flashes of light seen
- If you haven't had an eye exam in the past two years

- If you have diabetes or hypertension

What is 20/20 or 6/6 vision?

20/20 vision is a term used to express normal vision (the clarity or sharpness of vision) measured at a distance of 20 feet. If you have 20/20 vision, you can see clearly at 20 feet what should normally be seen at that distance. At Eye Care stores we have computerized vision testing.

PIH offers the most comprehensive eye care services in PNG. The multidisciplinary expertise and managed care protocols implemented ensure care of not just primary disorders of the eye but also eye problems related to other diseases like diabetes, thyroid disorders, autoimmune conditions, stroke etc.

Key Services

Comprehensive ophthalmic (eye) examination

Optical screening and refractions for correcting vision disturbances by dispensing prescription glasses

PUBLIC NOTICE

Pursuant to Practice Note 1 of 2015, the Registrar has compiled an inaugural Fast Track List.

The purpose of this Fast Track list is to "put in place a process to fast track the hearing and determination of certain cases before the National and Supreme Courts in which time is of essence and an expedited hearing and determination of the dispute is necessary in order to maintain the purpose and utility of these proceedings".

These cases fall into the following categories:

- 1 Cases involving election or appointment of persons to public offices for fixed term;
- 2 Civil and Commercial Cases involving fixed term contracts for provision of goods and services or goods of a perishable nature;
- 3 Civil and Criminal cases involving cases of public interest and /or the due administration of justice of which by reason of delay, there is a real risk of loss of witnesses or evidence, or real risk that proceeds of crime may be lost or perish, or that the purpose and utility of the proceedings will have been lost by the passage of time and injustice caused to parties;
- 4 Disputes involving interpretation and application of provisions of Constitutional Law;
- 5 Appeals and Reviews in which delay will cause irreversible harm, hardship and loss to the parties;
- 6 Civil cases involving imminent and irreversible destruction of the environment; and
- 7 Cases that are part-heard and delayed for more than 12 months, the continued delay of which will defeat the purpose of litigation and cause hardship to parties.

The types of expedited hearing include the following:

- 1 Expedited directions hearing for hearing of interlocutory matters;
- 2 Expedited directions hearing for trial / hearing of substantive matter;
- 3 Expedited Trial/Hearing of substantive matter;
- 4 Expedited completion of part-heard trial/hearing;
- 5 Review of conditions of Order/Direction issued previously;
- 6 Summary Determination;
- 7 Other actions (to be specified, for example review of interim stay orders, review of bail, etc.)

Inaugural Case Fast Track List:

The Registrar has compiled a list of cases before the Supreme Court and the National Court that fall into the categories outlined above. This Case Fast List is available to be collected by the parties or their lawyers or can be supplied on request via e-mail or fax. A copy of the list is also posted in the Court Notice Board at Waigani.

List to consult with the parties on the case list before the case list is submitted to the Court to commence formal court fast track proceedings. Lawyers and parties having interest in any of these cases should consult the Registrar to obtain the case list from the Registrar beforehand and attend the Call Over to be consulted.

Enquiries and List

All queries should be made to the Registrar by email; iaugerea@pngjudiciary.gov.pg or by fax on 3257732 or through the Telephone Nos; 3245868 or 3245818, or appointment at the Waigani Registry.
