## Cataract is Curable – now the blind can see

### What is a cataract?

The clear lens behind the pupil is responsible for focusing the light on the retina at the back of the eye and for us to see.

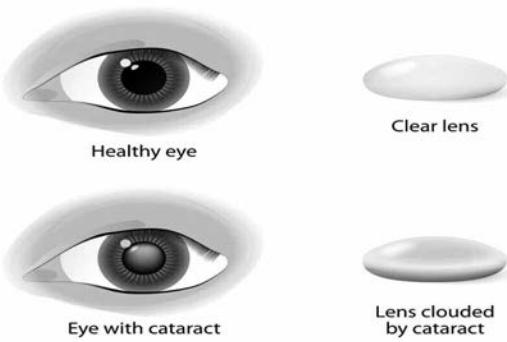

Cataracts are changes in clarity of the natural lens inside the eye that gradually decrease vision. The natural lens sits behind the colored part of the eye (iris) in the area of the pupil, the pupil appears white when there is an advanced cataract. The lens becomes very cloudy and appears white.

### What are the symptoms of cataract?

Significant cataracts may not appear white but block and distort light passing through the lens, causing visual complaints. When people develop cataracts, they begin to have difficulty doing activities they need to do for daily living or for enjoyment. Some of the most common complaints include difficulty glare and driving at night, blurred vision while reading or sewing, difficulty to focus when participating in sports, or traveling to unfamiliar areas; these are all activities for which clear vision is essential.

### Cataract

### What causes cataracts?

Cataract development is usually a very gradual process of normal aging but can occasionally occur rapidly. Many people are in fact unaware that they have cataracts because the changes in their vision have been so gradual. Cataracts commonly affect both eyes, but it is not uncommon for cataracts in one eye to advance more rapidly. Cataracts are very common, affecting roughly 60% of people over the age of 60. However, in PNG a lot of people develop cataract in their 50's. especially diabetics and people with history of trauma to the eye.

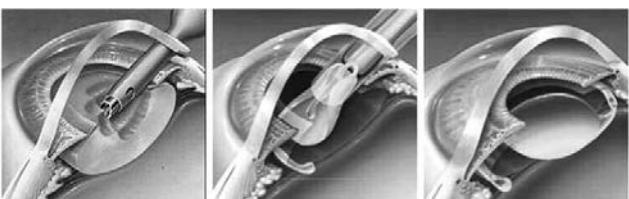

Rarely, cataracts can present at birth or in early childhood and in young adults due to severe trauma to the eye. Eye surgery, or intraocular inflammation can also cause cataracts to occur earlier in life. Other factors that may lead to development of cataracts at an earlier age include excessive ultraviolet-light exposure, diabetes, smoking, or the use of certain medicines, especially steroids.

### Cataract Treatment

#### Surgery

The standard cataract surgical procedure is typically performed in a hospital by a specialist eye doctor. There are four techniques for cataract surgery to remove the cloudy lens as no medicine is currently available to cure cataracts.

#### Phacoemulsification (phaco):

Internationally, the most common form of cataract surgery today is a process called phacoemulsification. In PNG, this modern technique is available at the Pacific International hospital in Port Moresby. With the use of an operating microscope, your surgeon will make a very small "key hole" incision in the surface of the eye in or near the cornea and will then insert a thin ultrasound probe from the phaco machine into the eye. The machine uses ultrasonic vibrations to dissolve (phacoemulsify) the cataract (clouded lens). These tiny fragmented pieces are then suctioned out through the same ultrasound probe. Once the cataract is fully removed, an artificial foldable lens is inserted through the key hole and placed into the same thin bag that the cataract occupied. This intraocular lens implant is essential to help your eye focus after surgery. In this modern method, cataract surgery can usually be performed in less than 20 minutes and may require no numbing injection and no stitches to close the wound!

### CATARACT FACTS IN PNG

Did you know that it is estimated that there are over 30,000 people living in PNG who are unnecessarily blind from cataract or a cloudy lens?

Don't let these people suffer from avoidable blindness due to a correctable condition and be

a burden on their family and society.

A simple cataract operation can restore their sight and improve their quality of life.

All PNG citizens should be aware of "VISION 2020 "the right to sight " a global initiative by WHO/IAPB to reduce avoidable blindness globally by year 2020.

If you are having symptoms of blurred or cloudy vision please visit an Optometrist or an Eye clinic.

The public is informed that Pacific International hospital and Eye care plus located in DownTown Port Moresby and RH hypermart in Gordons provide free eye and vision screening. Walk-in or Call now to book your free appointment at 323-3338 and 3234400.

If you have elders living in the village near Port Moresby, who are suffering from poor vision please take time out to bring them for a free eye test at any of the EYE CARE locations or PIH.

If you would like us to come to your village to do a free eye screening for the community or church, please contact PIH 323- 4400 to plan your eye screening program.

Dr. Amyna Sultan, is a US qualified specialist eye doctor who accepts private phaco and SICS cases at PIH and also performs free cataract surgery at PIH, for the disadvantaged and needy patients who are suffering from avoidable blindness due to cataracts.

# Gabriel Andandi Thank Tambul-Nebilyer Students For Endorsement

**CANDIDATE for Tambul-Nebilyer Open Seat 2017, Gabriel Andandi thank more than 2,000 students from Tambul-Nebilyer attending colleges and universities in PNG and abroad who took the bold stand to endorse and nominate him for 2017 Tambul-Nebilyer Open Seat.**

These students even contribute to pay his nomination fee on April 24 at Tambul station, from their heart and Gabriel is very humbled.

Mr. Andandi started paying Tambul-Nebilyer students' school fees since 1997 from his own pockets because when he was a teacher, he hate seeing students leaving class and school because of school fee reasons.

After establishing the "Tambul-Nebilyer Tertiary Student School Fee Initiative", Gabriel took as part of his responsibilities to see more students get better education and contribute back to their family, communities and district positively. He had the dream that if all Tambul-Nebilyer can be educated, we will see tangible developments including schools, roads, electricity, health centers and other infrastructures in the district.

Mr. Andandi sponsored more than 2,000 students from the district and other parts of the country. Most are now occupying responsible positions. The continuing students are under his sponsorship scheme in which more than half a million Kina was spent this year, under the motto, "A visionary leader to have an educated population".

"My dream is to produce more pilots, medical doctors, nurses, teachers, accountants and other professionals to assist me in making our electorate and country a peaceful and prosperous place to live in,"

"When the students endorsed me, I humbly welcomed their intention because ours was the same, "to have an educated pop-

ulation". I accepted because more than 2,000 students and intellectuals from throughout the district endorse me to be their MP and represent our people on the floor of parliament,"

"I was convinced that am not endorsed by one individual person or a self-interest organization or a political party serving its political agenda. The students' intention was to have an educated population through my ongoing school fee assistance and we all accepted that. Our dreams and desires were similar and this brought us all together,"

"We all agreed that if I can use my own hard earned cash since 1997 to assist students till today then imagine the extent of assistance I can offer when in Parliament," Mr. Andandi said.

Mr. Andandi is over qualified to represent his people in Parliament given his extensive and rich working experience and educational qualification. He can debate and talk in Parliament on issues of national and global importance and rub shoulders with world and regional leaders.

The first time candidate achieved the highest degree with a Masters in Human Resources from Monash University in Australia after the Bachelor's Degree from the University of PNG. His

Mr. Gabriel Andandi is confident he is the ideal candidate to represent the people of Tambul-Nebilyer.

last job was with UNICEF under the United Nation, then Department of Education, PNG National Commission for UNESCO, Part-Time Lecturer at UPNG and others. He clocked 10 year in the public sector and 10 years in private sector until he resigned and became a successful businessman.

"I experience working in teams with international organizations like UN (UNESCO, UNICEF, UNAIDS, UNDP) and in partnership with AusAid, NZAID, EU and other par-

ners managing millions of US dollars projects. I have extensive understanding of PNG schools and established extensive network with international organizations, key government agencies, donors, communities, churches and NGOs."

While with UNICEF, Gabriel implemented a program and brought back 1,900 girls to schools that were out of schools for various reasons like school fees, early pregnancy through the education program. He developed a community based strategy where the whole community pays for children school fees regardless of one having a child in school. This was initiated because one of the main reasons why children dropout is school fee. His work instills in him the passion to assist students from his electorate and others with school fees so they can have a decent life and bring up a good family.

Mr. Andandi plans to use his network and experience, coupled with educational qualification to contribute meaningfully beyond everybody's expectation. He will use his network and solicit funding and resources from outside and not necessarily depend on government annual budget only.

"If ever there a legacy be left behind under my leadership, it must

be peace, love, prosperity and the environment where one must live to exercise his/her full human potential. That is my dream and that will only be through better education,"

"I personally appeal to all the students to remember that my school fee initiative will continue and urge you all to equip me with all the available resources. Apart from what I already have, I ask you all to give me the mandate in this election,"

"I thank the 2,000 plus students to endorse and nominate me. And I appeal to the parents, relatives and wantoks of these students not to let down the students by giving me your vote,"

"To the people of Tambul-Nebilyer, you will one day have a child going to school and will need school fee. That child shall be under my care as I am "A Visionary Leader to Have An Educated Population"

"Let us look into our hearts and let us look down into the faces of our young students from Tambul-Nebilyer. Is there anything in this world that can stand in their way? In their faces live our hope, our love, our courage and promising future, and it is my commitment to support them. And I will continue as long as I live," Mr. Gabriel Andandi reiterated.

Students listening to Gabriel Andandi.

# Raun long Papua na Wes Papua

Don Niles i raitim

**L**ONG Janueri em nam-bawan taim bilong mi long kalap long boda na go long Indonesia. Mi bin go long Papua na Wes Papua. No ken paul.

Papua na Wes Papua ol i nem bilong tupela provins bilong Indonesia. Papua provins em stap long boda wantaim yumi long PNG. Na Wes Papua provins o Papua Barat em i stap long hap bilong ailan i go moa long wes.

Hamas man o meri PNG i save kamap turis na raun i go long Papua o Wes Papua? Mi no ting em planti tumas.

Tru, sampela i stap long Sandau provins i save go long batas maket i stap long hapsait bilong boda tasol. Long Tok Indonesia, mining bilong batas em boda.

Ol i save salim planti samting long dispela maket, na prais i winim PNG. Tasol ating planti lain i no save lusim maket ya na go moa long dispela tupela provins. Lusim boda na go long Jayapura o Sentani, em gutpela rot i stap.

Longpela taim mi save harim nem bilong sampela hap long Papua na Wes Papua olsem Jayapura, Sentani, Merauke, Manokwari, Sorong, o Fakfak.

Em ol taun i stap long dispela ailan wantaim yumi, olsem na mi ting bai wankain tru olsem ol ples long hia. Taim mi go long hapsait bilong boda, tru, mi lukim sampela samting i wankain olsem long PNG, tasol planti samting tu i narakain.

Sampela man i bin tokim mi olsem mi mas karim buai, daka, na kambang bilong PNG i go long Wes Papua, bilong wanem ol i no gat o buai bilong ol i no gutpela tumas.

Ol i giaman ya. Ol dispela samting i pulap i stap, tasol yu mas lainim nem long Tok Indonesia: buai em pinang, daka em siri, na kambang em kapur.

Na no ken wari long kaikai buai long hotel o arapela hap olsem. Ol bai putim notis long yu mas

spet gut na ol i makim rabis bin bilong spet.

Ol i no tambuim ol manmeri long kaikai buai, tasol ol i helpim ol long makim ples bilong spet. Em gutpela pasin.

Long Jayapura na arapela ples i stap klostu long boda, wan wan man o meri bai save Tok Pisin liklik. Tasol long taim yu lusim boda na go moa long wes, bai no gat olgeta.

Sampela i save Tok Inglis, tasol mobeta yu traim lainim wan wan toktok long Tok Indonesia.

Ol lain bai amamas long yu traim toktok wantaim ol na bai helpim yu tu.

Planti ples kaikai i stap long rot we prais i daunbilo. Na long sampela yu ken baim papeda, em sak-sak ol i tanim long hatwara. Wankain olsem ol Sepik i save tok nangu long en. Hamas ples kaikai long hotel bilong PNG i save kukim na salim nangu?

Long Papua na Wes Papua, planti man na meri i save raun long motobaik. Na taim mi go long Manokwari, ol motobaik i pulap tru. Draiva i putim yelopela helmet em makim em wanpela motobaik tekki o ojek.

Yu tromoi han na ojek bai stop na kisim yu. Yu sindaun long bak-sait bilong draiva na sapos yu no save long raun long motobaik yu mas holim draiva.

Em bai kisim yu i go long wanem hap yu laik. Tru, bas i stap, tasol sapos yu no save gut long ples, em i hat liklik long raun long bas.

Tasol long ojek yu kolim nem bilong ples na draiva bai kisim yu i go stret. Prais em K2 o K3 samting. Teksi bilong yumi i wankain prais o?

Prais bilong planti samting long hap i daunbilo. Yu ken painim planti hotel bilong slip we prais em K50 long wanpela rum. Long Manokwari, gutpela hotel long nambis i gat ol rum long K100 inap long K200.

Bai yu sotwin long traim painim hotel i gat dispela kain prais long

Mosbi o planti arapela taun long PNG.

Ol ATM i pulap long Papua na Wes Papua, olsem na sapos yu gat kredit kad, yu ken go long ATM na kisim mani bilong Indonesia. No ken wari em san o nait, ol ATM bai op yet na ol manmeri i no save pret long raun long nait.

I gat planti haus lotu bilong ol Kristen na bilong ol Muslim tu. Long maket long Jayapura, mi bungim wanpela man Jiwaka na famili bilong en.

Ol lain Muslim na man ya em i go lukim pikinini meri bilong en i skul long Jayapura.

Ol Papua na Wes Papua i save wokim bilum tu. Long Tok Indonesia ol i kolim noken. Na long Jayapura ol meri i save salim ol bilum arere long rot, wankain olsem long hia.

Sampela bilum i luk wankain olsem bilum bilong PNG, tasol sampela i narakain tu ya.

Mi amamas tru mi gat sans long raun liklik long Papua na Wes Papua provins.

Maski tingting long raun ovasis long Australia o Singapore tasol, ating gutpela moa long lukluk long Papua na Wes Papua. Em gutpela long lukim ol wantok long hap tu.

Wes Papua: Salim buai o pisang long bikpela maket long Manokwari.

Ol lain Muslim bilong Jiwaka i raun long maket long Jayapura.

Wes Papua: Planti bikpela sip i go pas long bris long Jayapura.
