Death toll rises in Gaza fighting as Israeli PM orders 'massive strikes' against Hamas

ROCKETS and missiles fired from Gaza killed four civilians in Israel while Israeli strikes killed 19 Palestinians, more than half of them civilians, in surging cross-border fighting on Sunday.

Key points:

- * Israel's military said that more than 600 rockets had been fired at Israeli targets
- * Gaza officials said 27 Palestinians, including civilians, had been killed by Israeli air strikes
- * Israel's military

killed Hamas commander Hamed Ahmed al-Khodary in an attack on his car

Israeli Prime Minister Benjamin Netanyahu said he ordered the military to continue "massive strikes" against Gaza's ruling Hamas group and Islamic Jihad in the most serious border clashes since a spate of fighting in November.

Israel's military said more than 600 rockets and other projectiles — over 150 of them inter-

cepted by its Iron Dome anti-missile system — had been fired at southern Israeli cities and villages since Friday.

It said it attacked more than 260 targets belonging to Gaza militant groups.

Gaza officials said Israeli air strikes and artillery fire had killed 27 Palestinians, including 14 civilians, since Friday.

Israeli bombings in Gaza destroyed four multi-storey structures.

Witnesses said the

Israeli military had warned people inside to evacuate from the buildings before they were hit, alleging they housed Hamas security facilities.

Saeed Al-Nakhala, owner of a clothing store in one of the buildings, said he had no time to save his merchandise.

"I was together with my son in the shop, there was a big noise and then another and people started to run. We left everything behind and escaped," he said.

Dozens killed as Cyclone Fani hits Bangladesh and India

THE strongest cyclone to hit India in five years killed at least 33 people in the country's eastern Odisha state before swinging north-eastwards into Bangladesh, where five more people died.

Key points:

- * Two children were among those reported killed in India

* The destruction in the town of Puri was said to be "unimaginable"

* Mass evacuations in India and Bangladesh are credited with saving many lives

But the evacuation of millions of people

across the two countries is believed to have saved many more lives.

Tropical Cyclone Fani, which made landfall early on Friday, lost some of its power and was downgraded to a depression as the storm hovered over Bangladesh.

"The fear of a major disaster is mostly over as [Fani] has weakened," said Shamsuddin Ahmed, director of the Bangladesh Meteorological Department.

A storm surge still breached embankments to submerge dozens of villages on

Bangladesh's low-lying coast, a disaster ministry official in Dhaka said.

The storm also destroyed several houses in the Noakhali district, where a two-year-old child and a 12-year-old girl were killed and about 30 people were injured, local official Tanmoy Das said.

In all at least five people were killed, 63 injured, and more than the 1,000 houses had been damaged, Bangladeshi authorities said.

Indian media reported that most deaths have been caused by falling trees.

The seaside temple town of Puri, which lay directly in the path of Fani, suffered extensive damage as winds gusting up to 200 kph tore off tin roofs, snapped power lines, and uprooted trees.

"The cyclone has killed 21 people in Puri and about 300 people are injured," Brajeshwar Dash, medical officer at Puri, told Reuters.

"Destruction is unimaginable ... Puri is devastated," Odisha's Special Relief Commissioner Bishnupada Sethi said.
